### MEMORIAL SERVICE.

Memory of Mrs. Jefferson Davis Honored by U. D. C. and U. C. V. Members.

A meeting was held at the First Baptist Church in this city Sunday afternoon and the memory of the late Mrs. Jefferson Davis was honored by public exercises in the presence of assembled members of L. S. Ross Chapter, U. D. C., Camp J. B. Robertson, U. C. V., and others.

Dr. Butler presided during the rendition of the program, which opened with an organ voluntary by Mrs. H. O. Boatwright. Dr. Betts offered an invocation and the congregation united in singing "Asleep in Jesus." This was followed by scripture reading by Dr. Butler from the fourteenth chapter of Job and a part of the eleventh chapter of John. Dr. Butler made appropriate comments and later spoke briefly in reference to the occasion.

A vocal solo, "One Sweetly Solemn Thought," was beautifully rendered by Mrs. W. C. Davis. The memorial address was delivered by Mr. W. C. Davis, who paid tribute to the memory of the honored dead and that of her husband who preceded her to the great beyond, and to their loved Southland. Another hymn, "Nearer, My God, to Thee," was followed by the benediction by Dr. Butler and the organ recessional.

### NOTABLE IMPROVEMENTS.

Hunter & Chatham, with commendable enterprise, have made some notable improvements in their store, and others are still in progress. They have put in handsome and up-to-date plate glass show windows, which are filled with new goods; installed complete new electric light fixtures and will extend the shelving to the ceiling to accommodate a largely increased stock of goods. This, with the rear fitted up for a tailor shop, and a new concrete sidewalk in front, makes their place exceedingly attractive.

### WILL GIVE RECITAL.

Misses Charlotte Harnish and Olive McClintock, teachers in the Texas Christian University of Waco, returned to that city yesterday after a visit to Mr. and Mrs. B. F. Leman. Miss Harnish, who is a vocal teacher, sang at the Christian church Sunday and her singing was received with so much favor that she and Miss McClintock, who is a talented reader, have been invited to give a recital in this city, and have consented to do so, the date to be announced later.

## IN ORDER TO END LIFE

P. MacFadyen, One Hour After the Notice of Firm's Failure Was Announced, Had Committed Suicide.

London, Oct. 22.—P. MacFadyen, head of the firm of P. MacFadyen & Co., bankers, whose suspension had been announced, committed suicide within an hour after notice of failure had been posted on the door by lying down before a train in a tunnel about half a mile away from his place of business.

Mr. MacFadyen appears to have gone directly from his bank to the station of the City and South London railway, entered the tunnel unobserved and deliberately lay down in front of an approaching train. The engineer reported having run over an obstruction in the tunnel. Search revealed a shockingly mutilated body, which was identified as that of Mr. MacFadyen.

It is rumored the failure of P. MacFadyen & Co., the London house of Arbuthnot & Co., bankers of Madras, was connected with the cotton market, but as Mr. MacFadyen was the sole partner in Europe it is difficult to obtain information on the subject.

## HURRICANE HORRIBLE

Southern Coast of Florida Sustains Great Damage.

## BLOWN OUT IN GULF

Boat Struck by an Immense Wave and Went to Pieces, and Unfortunates Seeking to Escape Washed Away.

Key West, Fla., Oct. 22.—Survivors of one of the houseboats of the Florida East Coast railway extension along the keys tell a harrowing tale of death and destruction during the storm of Thursday.

W. P. Dusenbury, civil engineer in charge of the work on Long key, arrived here on the Russian steamer Jennie, among other survivors rescued. He says houseboat No. 4, on which were 150 men, was struck by the storm at 5 o'clock Thursday morning, and was driven out into the gulf through Hawk's channel. At 6 o'clock the houseboat began to break up, and as the great waves hit her, men singly and in bunches of two and three, were washed into the sea and drowned. Some went below for protection, but when the top of the boat was carried away and waves rushed the boat soon went to pieces, thirty or forty of the men being crushed to death in the collapse, the others grabbing timbers to save themselves from drowning. Engineer Dusenbury was in the hold, but succeeded in getting a log and floated until Friday night, when he was rescued.

On one piece of timber sixteen men were clinging and nine were hanging to another. The side of the houseboat was crowded with men. It turned over three times, each time reducing the number.

The Russian steam Jennie sighted the wreckage and succeeded in rescuing the forty-nine men, who were brought here. Three other steamers with searchlights were picking up men dead and alive when the Jennie left the scene.

There was another houseboat with 150 men on board at Long key which Mrs. Dusenbury thinks was also swept to sea.

### SEVERE STORM.

Salt Lake City and Vicinity Sustain Considerable Damage.

Salt Lake City, Oct. 22.—For past twenty-four hours this city and vicinity was swept by a wind storm of unparalleled severity. In addition to three serious accidents to persons, property over a wide area was devastated, a fire fanned by the wind has obliterated the new plant of the Utah Packing company, causing a loss of about \$250,000. During the full period of the storm trains have arrived irregularly. For much of the time the street car service was at a standstill and the electric lighting plants were out of commission.

Ruined buildings, falling chimneys, broken windows, loosened signs and toppled trees throughout this and adjoining towns are the most common souvenirs of the storm and form in the aggregate an immense source of loss. The wind attained a maximum velocity of fifty-two miles an hour.

A number of persons here sustained injuries from falling trees and short circuited wires.

At Ogden a man was killed and \$100,000 worth of property destroyed by wind.

### Snow General.

Denver, Oct. 22.—A general snow storm prevailed along the eastern slope of the Rocky mountains from Wyoming to New Mexico Sunday. Snow has fallen in Colorado almost incessantly for twenty-four hours. Suburban electric lines have operated with difficulty and railroad have experienced delay in running trains.

### Worst In Years.

Albuquerque, N. M., Oct. 22.—The worst blizzard since the big storm of 1882 was general throughout New Mexico Sunday night. A high wind brought a general fall of snow and sleet throughout Grand valley, and reports indicate that the losses to sheep growers will be very heavy.

### Loved Ones Missing.

Miami, Fla., Oct. 22.—Captain Pinder, who was in Miami at the time of the storm, on returning home in Key Large, found his home swept away and his wife and two children missing.

### TERRIBLE CHARGE.

Negro Woman Accused of Murdering Her Two Children.

Lake Charles, La., Oct. 22.—Emma Williams, a negro woman residing west of the city, was lodged in jail on charge of murdering two of her children, aged four and six years. It is alleged that the children were taken out in a boat on Houston river and were held under the water till they expired.

#### BIG CROWD TO DALLAS FAIR.

H. & T. C. Sold One Hundred and Twelve Tickets Saturday and Saturday Night.

Bryan broke all records Saturday and Saturday night on the number in attendance from this city and county on the Dallas fair. Forty tickets were sold for the day train Saturday and seventy-two tickets Saturday night. It was a big crowd, so large in fact that the first train which came along, already crowded, could not take near all those who had purchased tickets, and they had to wait for the second section. Below we give a partial list of those who attended the fair the past two days: W. H. Morgan, J. W. Mathis, J. T. Jones, John Wiley, Joe Sheppard, Jim Conway, J. H. Suber Jr., Henry Lock, Jno. M. Caldwell, Robert S. Webb Jr., R. J. Roberts, Ed Martin, Frank Myers, H. O. Jones, Albert Schultz, Z. T. Wyatt, Tom Donnelly, Mr. and Mrs. John B. Mike and little daughter, Mr. and Mrs. Jolly Jones, J. D. Castles, Sam B. Wilson, Trent Newton, J. T. Hanway and son, John, J. A. McQueen, A. W. Buchanan, Mr. and Mrs. T. R. Batte, Miss Bernice Taylor, W. A. Withers, Miss Maud Nicol, Miss Laura Jordan, Jim Flanagan, Ralph Dunn, Mr. and Mrs. L. B. Mendola, Mr. and Mrs. Joe Saladin, L. Lobello and Nick Lobello.

Press reports state that 100,000 people were in attendance on the fair Sunday, and the railroads were put to their utmost in handling the crowds.

#### NEW COMPRESS COMPANY.

#### HARMFUL STOMACH DOSING.

No Need of It When Hyomei is Used to Cure Catarrh.

Physicians and scientists agree that the less medicine one swallows, the better. It is in keeping with this idea that Hyomei is recommended by leading physicians throughout this and other catarrhal sections.

When this treatment is used in catarrhal troubles, there is no stomach dosing, for the medicine is taken in with the air you breathe, and goes right to the spot where the catarrhal germs are present, healing the inflamed and irritated mucous membrane, killing the disease germs and entering the blood with the oxygen, driving all catarrhal germs from the system.

Do not try to cure catarrh of the head by putting medicine into your stomach, this is neither a scientific nor common-sense treatment. Breathe the healing balsams of Hyomei and in a few days you will notice relief, and its continued use will result in a complete and lasting cure.

E. J. Jenkins has seen so many cures made by Hyomei among his customers, several of the cases where all hope of relief had been given up, that he gives an absolute guarantee of cure, or money will be refunded, with every outfit he sells.

The complete Hyomei outfit costs but \$1.00, while extra bottles of Hyomei, if needed, are only 50 cents.

000 and so on through many of the best States in the Union being represented by memberships ranging in numbers all the way from 30,000 up. Although the idea originated in the South, the North and West and even East are dropping into line in a manner most encouraging to those at the head of the union. Having successfully shown its ability to cope with the problem of marketing the cotton crop, the union will now take a hand in regulating the price of wheat. There are indications that the organization intends to stick to its original principles, and profit by the mistakes that led to the disintegration of the Grange and the Alliance.

**BODY IDENTIFIED.**  
 Named Earl Dockery, and Lived at Asheville, Okla.  
 Amarillo, Tex., Oct. 20.—The boy murdered on Oct. 4 has been identified as Earl Dockery by his father, Silas Dockery, of Asheville, Okla. Earl Dockery had drawn \$120 wages, earned in railroad work, and started to return to his father's farm when he was murdered and robbed.

Since identification officers have gotten what they believe a good clew to the murderers. W. H. Dockray, uncle of the boy lives here, and viewed the body a number of times, but had not seen his nephew for a number of years, and did not know him, but remarked several times of the resemblance. He offers \$250 additional reward to the \$1,100 offered by citizens. Governor Lanham has been asked to offer a suitable one also, and the people expect him to add \$400 or \$500 to the amount. An effort is to be made to make the total \$2,000.

**MONTGOMERY STIRRED.**  
 Negro Porter Tried to Commit Assault on Little Girl.  
 Montgomery, Ala., Oct. 20.—Montgomery was stirred up Friday by an attempted assault on Callie Belle Cain, a ten-year-old white girl, by Herman Thompson, a negro porter, in the suburbs of the city. The negro was identified and captured shortly after his attempt, and immediately spirited away to Wetumka, fourteen miles from here, by a deputy sheriff.

The negro was delivering groceries to the Cain home. He attacked the child, but her screams prevented an accomplishment of his purpose. Representative negroes have issued a statement condemning Thompson's act and stating their willingness to aid in his legal conviction.  
 It was reported the negro was to be brought back, and 200 people gathered at the jail at 10 o'clock at night. After a committee inspected the building to see if Thompson was inside the citizens departed.  
 During the inspection a man started an incendiary speech, but was promptly seized by a deputy sheriff and locked up in the jail.

Efforts were made to revive him, to no effect.

**THE NEW VISIBLE**  
**FOX**  
**At Last a Perfect Visible Typewriter**  
 The One Typewriter That Correctly Solves the Objections That Have Always Heretofore Been Made Against "Front Strike" Machines.  
 Visible writing has always been considered as desirable by practically all typewriter manufacturers, but the difficulties to be overcome in construction in order to secure durability have discouraged the very large adoption of these machines. The invention of the method of assembling the type bars as it is done in the Fox Visible has, however, made possible the use of a wide pivotal bearing in the type hanger, thus insuring the most perfect alignment at all times and a durability that is equal to that claimed for any "basket type" machine. In building this new model, we have all the advantage of the knowledge that we have gained in building and placing the regular Fox models on the market and we are able to avoid all those experiments found in new machines which are so expensive to the purchaser.  
**Here is a Short Description.**  
**THE TYPE HANGER**—The hanger has a pivot bearing 7-16 of an inch wide. This allows the use of a heavy type bar, providing an adjustable pivot bearing which takes up wear as it occurs, thereby giving a permanent alignment that is impossible to secure with a narrow bearing without adjustment, and avoiding the trouble caused where "forced alignment" is necessary. This is the feature that has heretofore been considered as being impossible to secure in a visible writing typewriter. It is found only in the Fox and places the Fox Visible in a class by itself.  
**TWO COLOR RIBBON**—The ribbon movement on this machine is simply perfection. It reverses and oscillates automatically, requiring no attention from the operator from the time it is put on until worn out. When a two color ribbon is used, by simply touching a button on the keyboard the second color is secured instantly without raising the hand or even looking.  
**THE INTERCHANGEABLE CARRIAGE**—The carriage is so constructed that it can be quickly removed and a carriage of different length substituted. One machine can be purchased with different sizes of carriages, thereby effecting a great saving over the ordinary method of buying a long carriage machine complete. The carriage is ball bearing and runs with a tension of only 1 lb.  
**PERFECT VISIBLE WRITING**—The entire line is visible all the time.  
**THE KEY TENSION**—The force required on the part of the operator to print a letter is only 2 1/2 ounces. This is from 25 to 50 per cent. less than any other. It is a vital thing both from the operator's standpoint of less fatigue and the owner's of greater durability.  
**THE LINE LOCK**—When the carriage reaches the end of a line, the keys lock and nothing more can be written until the release button is used or the carriage returned to begin a new line.  
**ALUMINUM KEY LEVERS**—Key levers are made of aluminum. It is more expensive than steel or wood, but it is very much more desirable.  
**TABULATOR**—The Fox ten stop decimal tabulator is attached when ordered, at slight additional expense. It is the only decimal tabulator in use on a visible typewriter.  
 Every feature on this machine has been tried out and demonstrated as successful on the Regular Models of the Fox. Unprejudiced experts have without hesitation pronounced the machine a marvel.  
 Ask your nearest typewriter dealer to show you this machine. If he cannot we will make it easy for you.  
 The regular models of the Fox are still the most perfect machines of their kind and their manufacture will be continued as before.

## VESSELS WRECKED.

Several Towns in Honduras Also Suffered Considerable Damage.

Mobile, Oct. 22.—The first news of the terrible West Indian hurricane that visited the towns of Rutan, Tele, Uti-la, Colorado and El Provenca, Honduras, Oct. 12, were brought here Sunday night by the Norwegian steamer Harald, Captain Hennrichsen, that arrived with a cargo of fruit to the United Fruit company. A number of vessels were wrecked, several destroyed and buildings in each town mentioned badly damaged. The loss to the fruit plantations will reach almost \$1,000,000. The British schooner Southern Queen was thrown on the beach at Rautan and went to pieces in less than an hour's time. The Harald suffered some little damage in the hurricane at Rautan. The cable went down in the storm and the Harald was the first vessel to leave the vicinity. The Harald went on the beach, and in order to get back into deep water it was necessary that an extra anchor and seventy-three fathoms of chain be used, steaming dead ahead at full speed.

A tidal wave accompanied the hurricane and swept everything before it. Captain Hennrichsen reports that when he left beaches were strewn with vessels. No lives were reported lost at the time of the sailing of the Harald. Ten thousand bunches of bananas are reported to have been swept into the sea at Rautan and lost and officers of the steamer say it will be a month before some steamers can get any fruit.

## VALUABLE VALISE.

Contained Forty-Eight Thousand Dollars in Bond.

Cleveland, O., Oct. 22.—George C. Bell, a wealthy citizen of Chagrin Falls, O., near here, lost a valise containing \$48,000 worth of negotiable bonds while coming into this city on a suburban car. Another valise almost like his was left in its place by a stranger, who sat close to Bell. Bell did not discover his loss until he got off the car, and then made a report of the affair to the police. After working on the case all day the police arrested Leslie O'Dell, a railroad fireman, in a nearby suburb, and found the bonds in his possession. O'Dell said the thing was all a mistake; that he did not know that he had taken anybody's property, and that he had not even opened the valise. He was greatly surprised when shown the fortune which he had in his possession. All the bonds were intact. O'Dell was locked up, however, charged with grand larceny, being unable to obtain bail.

## LOUISIANA CHOSEN.

President Roosevelt Will Go to Panama on New Battleship.

Philadelphia, Oct. 22.—Official notice has been posted at League Island navy yard to the effect that the cruiser Washington will leave on or about Nov. 1 for Hampton Roads. The Tennessee is expected to pass out a couple of days later and the two warships will act as an escort for President Roosevelt on his trip to Panama. The president has selected the new battleship Louisiana for his battleship during the voyage. His plan now is to go aboard the Louisiana at New York on Nov. 8 and join the convoy at Hampton Roads. The trip will require about six days each way.

Sailors and marines on the Washington and Tennessee are elated at having been chosen as the president's escort. The two vessels are the newest and among the finest cruisers in the navy. Neither ship has her full complement of men, but when the Minneapolis and Brooklyn arrive from Havana part of the crews will be transferred.

## POLL TAX MUDDLE.

Petition For Writ of Injunction in Webb County Matter Filed.

Austin, Oct. 22.—A petition for a writ of injunction growing out of the Webb county poll tax muddle was filed in the Twenty-sixth district court by the attorney general and Judge Cobbs of San Antonio. It is alleged about 2,300 illegal poll tax receipts were issued in Webb county to unknown voters and were taken out by the Independent club, the Freeman's league and the Reform club, to be voted at the next general election as the clubs saw fit. The application for injunction is directed against the county clerk, sheriff, tax collector and members of these clubs and election judges to enjoin the use in the general election of these illegal receipts. The petitioners say that the illegal list will be turned over to the clerk of the district court for cancellation; that the court officers of Webb county are disqualified from hearing the case, which explains its presentation in this county.

## TWENTY TRAINS.

Record Attendance at Texas State Fair Broken on Sunday.

Dallas, Oct. 22.—It is estimated that between 80,000 and 90,000 people visited the fair grounds Sunday, the greatest attendance ever known in the history of the Texas State fair. It is asserted by many that there were nearly 100,000 present.

Every facility for the handling of the crowd was taxed to the utmost. Yet it was declared that the railroads were not able to bring all of those who wanted to come. More than twenty special trains were run into the city. These had long strings of coaches and every available bit of space on them was pre-empted by a passenger.

Local street railway lines declare that they exceeded records for the number of people hauled. All cars were put into service, and but for the fact that a new machine had recently been installed in the power house, Edward T. Moore, the general manager, declares that the traffic could not have been moved. People rode everywhere on the cars and it is a marvel that there were not scores of serious accidents. The Interurban, between Dallas and Fort Worth, ran a double line of trailers every half hour, but could not handle its business. Saturday the attendance was approximately 70,000.

## CURES

Mr. Jacob Frank, a prominent business man of St. Louis, says:

"Your remedy cured me of one of the most obstinate cases of eczema that I have ever known or heard of. My case was of four years' standing on both hands, and had been pronounced incurable by leading skin specialists and physicians of this city. Like all sufferers of itching skin diseases, I tried all remedies that were recommended to me, and found absolutely nothing that did me any good until ZEMO was used. I will be pleased to write any sufferer who doubts this statement. Yours very truly, JACOB FRANK, Pres. Frank Merc. Co., 821 N. 6th St., St. Louis.
